# How to apply for a Europe Basketball Academy program

Detailed how-to guide for program application and payments

## Step 1: Select the program

---

The Europe Basketball Academy offers seven different types of programs. Applicants are expected to assess their needs and choose a program that will help them elevate their current playing skills and support them in reaching their set career goals.

The Academy offers the following programs:

**Pro Placement Program** - recommended for professional basketball players who wish to continue their careers in some of the Europeans professional leagues. There are certain requirements regarding the minimum basketball skill and physical ability applicant has to fulfill in order to become a part of the program. The goal of the program is to arrange professional opportunities for the participants and connect them to renown European agents and agencies upon the completion of the program.

**Academy Development Program** - Perfect for players who wish to be pushed out of their comfort zones, work intensively to reach their full athletic potential, and improve their basketball skills drastically. Participants can expect to improve their individual technique and playing tactic, while polishing up their overall game on the court. The workout system is based on the famous Yugoslavian basketball system which produced over 50 NBA players in the last three decades.

**NCAA Prep Program** - Recommended for individuals who wish to play basketball in the USA and are looking to apply for athletic scholarship. In addition to practices and workout programs, participants go through the SAT preparation. Real recruiters from US colleges will assess players' abilities and give valuable feedback. Participants can expect to reach both academic and athletic standards for getting their desired scholarship.

**Euro Prep Program** - aimed at young players who do not hold a college degree yet, but wish to taste the world of professional basketball right after high school. The program includes intense workouts and practices, as well as the minimum of 30 games played against professional teams in Spain. Former participants find this program extremely useful because of the direct exposure to the way professionals play.

**Specialist Program** - designed to help participants become more versatile players and perfect specific skills for different basketball positions. The program is organized in several small groups (maximum of 2 or 3 players per group) that are focused on a specific playing position. Participants can choose from five programs: Point Guard, Shooting Guard, Small Forward, Power Forward or Center program.

**Junior Summer Program** - a 1-week summer program in Barcelona designed for junior athletes. Boys and girls between 12 and 20 years old are eligible to apply. All the participants will gain fundamental basketball skills while enjoying the accompanying program: a visit to the Barcelona FC stadium, swimming schools, flamenco nights, etc.

**Yugoslav Shooting Lab** - a program aimed at players who wish to improve their shooting skills. The program is based on the world-known Yugoslavian methods which were used for developing some of the finest shooters in the region (such as Drazen Petrovic and Pedja Stojakovic). Participants will gain precious skills, especially in the field of competitive shooting and shooting under pressure.

## Step 2: Fill in the application form

Once you've decided on the program within the Europe Basketball Academy that you wish to apply for, head on over to the EBA website and navigate to ["Apply" page](#).

## What are IBANs & SWIFT codes?

---

IBAN stands for International Bank Account Number, which you can use when making or receiving international payments.

Your IBAN doesn't replace your sort code & account number — it's an additional number with extra information to help overseas banks identify your account for payments.

A SWIFT code (or SWIFTBIC, as it's sometimes known) is a code that helps overseas banks identify which bank to send money to.

If you need additional help with the bank transfer, please reach out to your bank representative for assistance.
